The Arizona Department of Transportation is hard at work on Interstate 17 in the North Valley.

While creating an exit at Dixileta Drive, crews have made a construction bypass to help drivers avoid some of the worst of the construction problems.

In addition to the Dixileta exit and a new interchange at Jomax Road, ADOT is also adding two lanes in each direction from Happy Valley Road to Daisy Mountain Drive, including a carpool lane each way.

ADOT is hosting an open house to discuss the construction tonight at Sandra Day O'Connor High School. That will take place in the school cafeteria at 6 p.m.

A second informational session takes place tomorrow evening at Boulder Creek high School.
